

MedMedia9

MedMedia9 would like to extend our Discount Service Agreement to the members of the Pitt County Medical Society. “Association # pit9”

MedMedia9, LLC a North Carolina Corporation, would like to extend to the members in good standing a 10% discount on our website design and hosting packages as seen on www.medmedia9.com web site. We design and host websites exclusively for the health care industry and have provided other services to the industry for over 20 years. We understand the requirements of medical practices and will design and host our client’s websites from Raleigh, North Carolina, a Made in the USA Company.

Our website designs stand out with professionalism, solid branding, interactive correspondence, and provide important forms from your site such as patient history forms. Your practice website will market your services and will push your website near the top in all major search engines using cutting edge SOC and Meta Tag imbedded internet search optimization.

MedMedia9 will deliver your affordable yet powerful practice website in less than two weeks, allowing new patients to find you, your current patients to be more informed, and your medical colleagues to find you making the physician to physician referral process easy.

A medical website from MedMedia9 is the most powerful and economical way in which you can market your website and increase the value of your practice. Showcase your practice and services with a sophisticated informative practice website.

Call us today to discuss your new practice website and grow your practice by more than 30% this year.
